Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 8-12, and 14 are rejected under 35 U.S.C. 102(b) as being anticipated by EP-0038584.

EP-0038584 discloses a ceramic heater comprising a ceramic body of non-oxide material and a metal plate connected with ceramic body via brazing material which has a metal with a liquidus line temperature of 1200 degrees Celsius or lower and at least one of V, Ti, Zr, and Hf as an active metal, a reaction layer (page 9, line 26-page 10, line 7; claimns 1, 2, 11; page 10, lines 24-31).

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1-3 are rejected under 35 U.S.C. 103(a) as being unpatentable over JP2003-317908 in view of JP2003-249545.

JP2003-317908 discloses a ceramic heater comprising a ceramic body, a resistor, an electrode pad, and a plating layer (abstract). JP2003-317908 does not disclose boron (B). JP2003-249545 discloses boron. It would have been obvious to one of ordinary skill in the art at the time the invention was made to have included boron in the ceramic heater of JP2003-317908 because, boron allows for a more uniform heating.

Allowable Subject Matter

5. Claims 6-7 are allowed.
6. Claim 13 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
